ENTERPRISE: <u>BEEF-FEEDLOT AND PUREBRED</u>

PREPARED BY: Randy Perry, Enterprise Manager

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

1. Continued to maintain the feedlot facilities in good repair.

- 2. Animal Science 1, 11, 21, 71, 81, 121, 171, and 181 classes were taught using beef cattle maintained at the Beef Unit.
- 3. Continued to develop bulls and heifers for outside cooperators. This allowed us to develop positive relationships with industry producers and also the opportunity to generate income to help cover the expenses associated with equipment rental/repair and student labor.
- 4. Provided cattle classes and/or officiating for the Fresno County 4-H judging contest. In addition, numerous 4-H, FFA, and Collegiate judging teams were able to utilize cattle for workouts and participate in contests on campus.
- 5. Animal Science 1, 11, 21, 35, 81, 101, 121, 145, 155, 165, and 181 classes were taught using the Beef Units for various laboratory activities.
- 6. The Internet Private Treaty Bull Sale was successful with 17 bulls selling for an average price of \$3,500/head. These bulls were a combination of bulls owned by the Beef Unit and also bulls consigned by outside cooperators.

- 1. Continue to maintain the Beef Unit facilities.
- 2. Continuation of the Beef Unit as a viable enterprise unit that is important from an instructional and programmatic standpoint.
- 3. Continue to develop both bulls and heifers for industry cooperators.
- 4. Involve students in all aspects of the coordination and management of the unit.
- 5. Continue conducting the Internet Private Treaty Bull Sale.
- 6. Achieve an artificial insemination pregnancy rate of 70%, with 30% of the calves sired by natural service sires.

ENTERPRISE: <u>CREAMERY</u>

PREPARED BY: Daniel Avila, Dairy Industry Technician

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

1. Provided lab support and labs for Food Science 41 and 142 dairy processing labs and for student projects.

- 2. Acquired new equipment for production efficiency through grants with the help of a faculty member and the Fresno State Foundation's creamery equipment grant.
- 3. Hosted the Milk Quality and Dairy Foods FFA Field Day contest.

- 1. Continue requesting donations from California Dairy Industries Association to help offset the cost of student assistants.
- 2. Focus on producing ice cream, cheese, and tea. These products have a much better shelf life and profit margin while utilizing less labor. Introduce a sorbet (nondairy frozen dessert) per customer request.
- 3. Increase the flavor offerings in the smaller 8 oz and 14 oz ice cream flavors. The automated ice cream filler/lidder will tremendously help with this effort as the machine will enable us to reduce labor and time in filling and lidding containers.
- 4. Continue to increase space for popular flavors with better sell through, which will help in eliminating inventory of ingredients for less popular flavors. This will reduce time and cost in production by not having to clean out between different flavors. This will also help supply the Gibson Farm Market with a more consistent supply of product not only in ice cream but also in the other products we supply them.
- 5. Will continue to acquire new equipment for production efficiency and for new product development. The new equipment will also be used for instructional labs and workshops.

CREAMERY BUDGET 2023-24

ENTERPRISE: **DAIRY**

PREPARED BY: Dr. Kyle Thompson, Dairy Science Program Coordinator

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

1. Started commodity barn replacement.

- 2. Continued to actively engage students in the day-to-day operations and management of the Dairy Unit.
- 3. Employers actively recruited students from our program due to the experience and performance of previous hires.
- 4. Utilized the enterprise unit in the following Animal Science courses: 1, 11, 35, 61, 67, 101, 145, 146, 156, 161, 162, 163, 165, 180, 190, and 194, using the facility and its cattle to enhance the learning experience.
- 5. The Dairy Club (current students and program alumni) utilized the facility and cattle as an integral part of their club activities.
- 6. Collaborated with local area high schools, 4-H Clubs, and the California Milk Advisory Board in providing dairy cattle for virtual educational demonstrations.
- 7. Hosted several industry training seminars as well as educational tours for a wide variety of clientele.
- 8. Dairy students were instrumental in using Dairy cattle for educational programs for FFA activities.
- 9. Holstein herd ranked 3rd in all universities and 12th in the entire western United States based on our breed age average of classification scores.
- 10. Total of 19 excellent Holstein and Jersey cows.
- 11. Holstein herd continues to achieve the highest milk yield average that Fresno State has ever achieved at 96 pounds per cow, allowing us to ship more milk per cow than ever before.
- 12. Continued to achieve our quality and protein bonus from CDI.
- 13. Integration of Dairy Diagnostic laboratory for milk analysis and health evaluations.
- 14. Secured commitment of donation of cattle from alumni and friends, load of alfalfa hay, and 19 loads of almond hulls.
- 15. Five (5) embryo heifers born.

- 16. Improved student labor efficiency by reducing to one milker per shift.
- 17. Switched to milking three (3) times per day and feeding milk cows twice per day.
- 18. Changed herd management software to Dairy Comp 305 (donated).

- 1. Further improve herd genetics. Utilize herd genetics to market and sell animals or embryos as a source of revenue to reinvest into our herd.
- 2. Utilize technology to improve reproduction efficiency including in vitro fertilization and embryo transfer.
- 3. Seek out avenues to reduce the production cost of milk, feed, supplements, and herd health and veterinary examinations.
- 4. Continue to upgrade portions of the facility for safety and efficiency.
- 5. Hire one full-time (non-benefited) employee to increase efficiency.
- 6. Attract further alumni support for participation and donations to reduce costs.
- 7. Seek improvements for silage storage and packing to reduce shrinkage.
- 8. Seek funding (NRCS) to build concrete feed and manure storage areas.
- 9. Seek funding (CA Air Board) to purchase and install a robotic feeding system.
- 10. Start 3-year fundraising campaign to build a new 250-head robotic freestall barn.

ENTERPRISE: <u>RUE AND GWEN GIBSON FARM MARKET</u>

PREPARED BY: Patty Terry, Gibson Farm Market Manager

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

1. Increased packaged products sales by over \$38,000.

- 2. Additional merchandise includes hats with Ag logos and charcuterie cutting boards, which have proven to be a massive seller.
- 3. Partnered with the Meat's Lab and started hosting charcuterie class. It's been met with substantial interest and with increased attendance after each class.

- 1. Provide students the opportunity to the lead and come up with different snack trays to showcase.
- 2. Keep finding new lines of branded merchandise to generate sales when a wide variety of fresh produce is not available for sale. These added product lines will add to the overall bottom line.
- 3. Improve our presence on social media, campus outlets and utilize community calendars to promote our store events.
- 4. Continue with the development of our student leads.

ENTERPRISE: FIELD CROPS

PREPARED BY: Robert Willmott, Instructional Support Technician – Field Crops

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

1. Utilized new Fendt tractor for wheat planting and tillage operations. This tractor is a great asset for the composting operation.

- 2. Planted and harvested 108 acres of wheat for silage and hay production. Planted and harvested additional 25 acres of wheat for dryland farming and soil improvement in veg crops and vineyard.
- 3. Installation of Cordoba system on Center Pivot Irrigation System.
- 4. Hosted multiple Ag Mechanics Lab classes.
- 5. Participated in documentary with UC Davis about the "Field to Feeder" showing how the complete process of using dairy manure, strip tillage, cover cropping, and silage corn all go together to produce crops for dairy cows.

- 1. Continue conversations with the Beef unit to explore the possibility of using a pasture for Alfalfa production and creating a new long-term plan for crop cycling and forage production.
- 2. Continue producing corn silage under minimum tillage while improving yields to 25 tons of silage corn per acre while utilizing minimum tillage equipment.
- 3. Continue to improve soil health through increased applications of compost and soil amendments combined with reduced tillage.

ENTERPRISE: HORSE UNIT

PREPARED BY: Sara Larson, Equine Unit Manager

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

- 1. Four (4) broodmares in foal to top-quality stallions.
- 2. Acquired donations for nine (9) top-quality stallions.
- 3. Sold two (2) wearlings and two (2) yearlings to well-known industry owners who will exhibit them and bring further interest to the program.
- 4. Increased boarding rates at Student Horse Center and Quarter Horse Unit, by \$10/horse to account for minimum wage increase.
- 5. Completed repairs and improvements to the bullpen (wood sided round pen) and added new sand to all three (3) round pens to improve footing and reduce injuries and lameness to horses.
- 6. Utilized class funding to stock up on necessary supplies and supplements for the horses, reducing the impact on the budget for the coming year, updated necessary equipment for lab classes hosted at the Quarter Horse Unit.
- 7. Oversaw restoration and repair of the hot walker to aid in horse rehabilitation and recovery from injury, and to assist in proper cool down from exercise.
- 8. Invested in new cameras for the foaling barn to improve safety for the mares and improved education for the students; installation to occur at the end of the spring semester.
- 9. Coordinated dirt work at the QHU to improve the driving areas and reduce wear and tear on the wagons and tractor.
- 10. Successfully campaigned to market our riding horses and young horses for sale.

2023-24 GOALS:

1. Strategic investment in high-quality breedings to increase future income, aiming for 6-8 mares in foal for next year.

- 2. Increase boarding rates to account for increased feed costs and increased minimum wage. Re-evaluate Equestrian Team MOU rate to accommodate for increases in minimum wage for the past couple of years. Change shavings supply company to save on the cost of shavings per bag.
- 3. Coordinate irrigation of pastures over summer to lower feed costs and to keep pastures viable.
- 4. Start planning for and investing in new quality broodmares to replace aging broodmares, and to increase sales revenue.
- 5. Work on creating a Fresno State Quarter Horse Unit "freeze brand" for better recognition in the industry in the future. Freeze brands are more humane for horses than "hot brands" and provide a marking for ID purposes.
- 6. Continue to make improvements to the Student Horse Center including dirt work in Barn 1, power washing the stalls, and rebuilding the round pen.
- 7. Continue to sell unused equipment and acquire items we need.
- 8. Continue to market unit horses and increase industry involvement and support of the program.

ENTERPRISE: <u>MEATS LABORATORY</u>

PREPARED BY: John A. Henson, Enterprise Manager

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

1. Competed at California State Meat Processors Sausage Competition.

- 2. Student products resulted in Champions and Reserve Supreme Champions.
- 3. Upheld USDA and FSIS inspection status during an in-depth verification audit by USDA personnel.
- 4. Introduced Charcuterie classes in cooperation with the Gibson Farm Market.
- 5. Secured donation of a new vacuum stuffer, valued at over \$70,000, that will allow us to make new value-added products.

2023-24 GOALS:

- 1. Evaluate the biological and physical security of the laboratory. Work towards a plan to ensure that we are not vulnerable to a food-borne illness outbreak due to cross-contamination. We need a separate, ready-to-eat room with dedicated equipment.
- 2. Produce and market products that have a higher profit margin but lower volumes and labor inputs. These will be small per package quantity products like snack sticks and jerky.
- 3. Attempt to replace/repair aging equipment in the lab. We are in need of several pieces of equipment, an item of critical importance is a refrigerated truck.
- 4. Maintain the most effective meat science teaching and applied research program in the Western United States.
- 5. Continue to develop cooperative relations with secondary and post-secondary educators to recruit students into our program and the meat science industry.

LONG-TERM GOALS:

1. Expand the Meats Lab to incorporate a new Ready-to-Eat and Value-Added Lab to produce traditional European style products and ready-to-eat products. This new facility will accommodate expanded further processing and bring us in line with federal regulations for product flow in our plant. The facility is rapidly deteriorating due to the increased product flow and continued commercial use of a facility that was built as a test pilot plant. Efforts to maintain, repair, and replace broken and worn-out equipment will be paramount to continued success in this facility. We have seen numerous refrigeration/freezer failures this year that have significantly impacted our productivity.

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

1. Planted 2.5 acres of figs that include two (2) main varieties (brown turkey and black mission) and one (1) row with trellis system and multiple varieties.

- 2. Incorporated 27 acres of Butte/Padre wood chips.
- 3. All olive oil is now certified organic including the three (3) new infused blends.
- 4. Continued research projects with professors, grad students, and companies that included: rootstock trial, pistachio dormancy, bee pollen, prowl, Ziuada, Chickweed, finished miller, finished helena, and afri kelp projects.
- 5. Cover cropping on 90% of orchard crops.
- 6. Hosted multiple field days with Fresno Equipment Company, Blue White Robotics, Field-In, Air-O-Fan, and Ag Otter.

- 1. Continue the development of 111 acres of new orchards.
- 2. Work on fencing security threats for world-class research.
- 3. Install fertigation system for the almonds east of Willow with drop control donation.
- 4. Continue to host classes and labs in the Orchard Unit.
- 5. Joint project with plant and animal science sheep grazing in the olive orchard.

ORCHARD BUDGET 2023-24

| | 2020-21 Actual | 2021-22 Actual | 2022-23 Budget | 2023-24 Budget | Budget Variance |

ENTERPRISE: <u>HORTICULTURE NURSERY</u>

PREPARED BY: Calliope Correia

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

- 1. Began in-person workshops for on-campus departments, inviting them to the Nursery for teambuilding activities.
- 2. Maintained relationship with Gazebo Gardens for purchasing our transplants.
- 3. Supported an increased number of faculty and student research projects in greenhouses and fields.
- 4. Supported student research projects that won awards and scholarships for students.
- 5. Increased in-person classes held at the Nursery (up to seven a week).
- 6. Collaborated with PLANT 190 faculty and students to help manage Nursery IPM
- 7. Up to date with all organic certification and CDFA Nursery sanitation requirements.

- 1. Initiate student research projects focused on incorporating new methods/technology for nursery production in the reality of reduced labor force.
- 2. Resume on-campus flower deliveries and on-campus sales of flowers and plants.
- 3. Better define production vs. class space to accommodate needs of both.
- 4. Continue to nurture relationships with colleges and departments on campus with horticulture-based projects (i.e., Sacred Garden, Huggins Center, Sustainability Club, etc.).
- 5. Develop projects with faculty to incorporate more class involvement with production.

ENTERPRISE: **POULTRY**

PREPARED BY: Rodrigo Lopez, Enterprise Manager, and Lecturer, Animal Science, Poultry

Science

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

1. Maintained above industry-standard live weights and feed conversion for all flocks raised.

- 2. Submitted grant for funding to supplement poultry farm costs.
- 3. Hosted Poultry Science students (75) for the State FFA Poultry Judging Contest held on campus.
- 4. Provided a learning laboratory for over 600 students through coursework and tours. Courses that utilize the facility are AGBS 170S, ASCI 67, ASCI 91, ASCI 1, ASCI 155, ASCI 165, ASCI 191, ASCI 101, and ASCI 182.
- 5. Provided student learning environment for six (6) student assistants and four (4) student volunteers.
- 6. Eight (8) offers of paid internships and jobs in the poultry industry to the Poultry Program students.
- 7. Continued to employ a technician to assist with unit research through grant funds.

- 1. Maintain an outstanding relationship with Foster Farms' new management team.
- 2. Provide a hands-on opportunity for all students interested in Poultry production (40 currently).
- 3. Excel in the raising of birds year after year; provide the best experience to our students as possible.
- 4. Assist with summer internships for six (6) students that are currently employed at the Poultry Unit.
- 5. Perform research that is highly sought after by the poultry industry.
- 6. Give students the skills necessary to obtain a full-time role in the Poultry Industry upon graduation.

POULTRY BUDGET 2023-24

ENTERPRISE: <u>SHEEP</u>

PREPARED BY: Annika Austin, Enterprise Manager

REVIEWED BY: Steven Rocca, Program Leader, Animal Sciences & Ag Education

Mark Salwasser, Farm Manager, and John Cordeiro

2022-23 ACCOMPLISHMENTS:

1. Production:

- a. Lambing percent = 150%
- b. Percent of lambs weaned = 140%
- c. Lamb mortality = 20 lambs died at birth
- d. Average price per lamb = \$400
- 2. Participated in a live/online sale hosted by Estes Club Lambs, selling eight (8) lambs at an average of \$1,000/lamb. Will continue to explore every opportunity to market our lambs via online sales, which is becoming the industry norm.
- 3. Continued an aggressive weed control program that greatly reduced the weed problem in the sheep area with assistance of Ag Operations.
- 4. Fresno State-bred lambs were champions at numerous shows in California for 4-H and FFA members.
- 5. Utilized Laparoscopic Artificial Insemination (AI) which is critical for the success of the Sheep unit going forward. The lambs that were born this year are exceptional. Neff Club Lambs and Estes Club Lambs donated the semen collected from rams that were valued at over \$50,000. This donation of \$50,000 in semen will increase the value of our lambs in the future.
- 6. Received donations of numerous health care products (MWI Vet Supply), feed at cost (Farmers Warehouse), use of rams (Estes Club Lambs), semen (Estes and Neff Club Lambs), and discounted alfalfa hay (Caetano Farming).
- 7. Synchronized breeding of ewes for early fall lambing using a vaginal estrogen sponge and CIDR implants.
- 8. Sheep production enrollment remained strong, with 32 students enrolled. The Sheep Unit is used in laboratory work in the following classes:

| | | Labs |
|--------------------------------|-----------|----------|
| <u>Class</u> | | per year |
| Intro to Animal Science | A SCI 1 | 7 |
| Livestock Evaluation | A SCI 11 | 8 |
| Feeds & Feeding | A SCI 35 | 8 |
| Sheep Production | A SCI 41 | 20 |
| Intro. Animal Health | A SCI 65 | 2 |
| Intro. Livestock & Dairy Eval. | A SCI 81 | 8 |
| Environment Mgt. Farm Animals | A SCI 101 | 2 |
| A.I. & Embryo Transfer | A SCI 156 | 1 |

| Infectious Diseases | A SCI 165 | 1 |
|------------------------------|-------------------|---|
| Meat Science | A SCI 171 | 4 |
| Livestock Mktg & Show Mgmt. | A SCI 182 | 1 |
| Adv. Livestock & Dairy Eval. | A SCI 181 | 8 |
| Approximately | 600 Students/Year | |

- 1. Continue A.I. breeding program and utilize semen from our rams, Estes Show Lambs, and other sheep breeders.
- 2. Utilize online resources to sell club lambs around the country.
- 3. Heating and Cooling System for the main barn.
- 4. Cross-fence pastures and replace old wire fences.
- 5. Aggressive weed control of pastures with the help of Ag Operations.
- 6. Use Facebook, Facebook Live, and other social media platforms to advertise our sheep and connect with buyers and potential students.

ENTERPRISE: <u>SWINE</u>

PREPARED BY: Scott A. Williamson, Enterprise Manager

APPROVED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

1. Prepared students for a wide variety of opportunities in the pork industry (management and technical service, veterinary).

- 2. Recruited and trained students by developing and maintaining a nationally competitive swine program.
- 3. Improved artificial insemination techniques to increase conception and subsequent farrow rates. Improved marketability of pigs by artificial inseminating females to some of the best boars in the nation.
- 4. Implemented a vaccination program for PRRS, Erysipelas, Leptospirosis, and Pneumonia to improve reproductive and animal performances.
- 5. Solicited substantial semen price discounts from various vendors, saving an estimated \$9,680.
- 6. Introduction to Pork Production (ASCI 31) enrollment remained strong: 48 undergraduates. In addition, hogs and/or the Fresno State Swine Unit was used for laboratory work in the following classes:

| <u>Class</u> | Course Abbreviation | <u>Labs/year</u> |
|---------------------------------------|----------------------------|------------------|
| Livestock Evaluation | A Sci 11 | 4 |
| Feed & Feeding | A Sci 35 | 4 |
| Swine Production | A Sci 31 | 30 |
| Intro to Livestock & Dairy Evaluation | A Sci 81 | 16 |
| Environmental Management of Farm Ar | nim. A Sci 101 | 2 |
| Anatomy & Physiology | A Sci 145 | 4 |
| A.I. & Embryo Transfer | A Sci 156 | 2 |
| Infectious Diseases | A Sci 165 | 4 |
| Meat Science | A Sci 171 | 4 |
| Livestock Mktg & Show Management | A Sci 182 | 4 |
| Adv. Livestock & Dairy Evaluation | A Sci 181 | 10 |

2023-24 GOALS

- 1. Facility improvement that includes painting (buildings/fences), landscaping, lighting, and other needs across the unit.
- 2. Improve genetic base to maintain competitive edge in project pig sales.
- 3. Organize and modernize the A.I. Laboratory.
- 4. Incorporate the use of hospital pens for health challenged animals.

LONG TERM GOALS 2024-30:

- 1. Design and construct feed milling facility to include Weigh-Tronix SFM-2000, 18-month storage of corn, soybean meal and bagged supplements.
- 2. Purchase double L portable farrowing unit (12 sow-capacity) and an additional nursery unit.
- 3. Build a 240-pig capacity nursery-growing-finishing research barn (2 rooms).
- 4. Build shavings and straw storage area to accommodate bulk delivery.
- 5. Work cooperatively with the meat science faculty to perform applied research in the pork area.
- 6. Draft grant proposal for the NPPC, CPPA, CATI and/or ARI.
- 7. Support the National Junior Swine Association to benefit recruitment and program visibility in the National Swine Registry. Become more active in the National Swine Improvement Federation.
- 8. Purchase new gator and bobcat loader with implements to facilitate waste removal.

SWINE BUDGET 2023-24

ENTERPRISE: <u>VEGETABLE CROPS</u>

PREPARED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

- 1. Focused on production of strawberries and asparagus to lengthen the sales season. These two commodities are gaining popularity with our Gibson Farm Market customers.
- 2. Provided land, equipment, and expertise for student research projects.
- 3. Conventional plantings include sweet corn, tomatoes, squash, peppers, cucumbers, watermelon, eggplant, green beans, pumpkins, asparagus, and strawberries.

- 1. Provide a field laboratory for students in crop science and plant protection, while supporting the Gibson Farm Market and Agricultural Foundation.
- 2. Provide experience for the Vegetable Crop student assistants in the production and storage of produce, while providing the community with quality products at competitive prices.
- 3. Offer student assistants the ability to gain experience and play a role in the continuing application and improvement of food safety practices such as FSMA, GLOBAL.G.A.P, and those provided by the County Agricultural Commissioner.
- 4. Allow student assistants to take on the responsibility of partaking in employing procedures that improve the safety of the produce generated by the Unit through traceability measures.
- 5. Increase the efficiency and standards of good agricultural practices with extensive development of procedures, record keeping, and implementations.
- 6. Continue to carry out advanced agricultural techniques such as minimum tillage, drip irrigation, precision fertilization through the drip irrigation system, and improving the fertility of the soils through yearly applications of compost and soil amendments.

ENTERPRISE: <u>VINEYARD- TABLE GRAPES</u>

PREPARED BY: Leah Groves, Vineyard Technician

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

- 1. Removed two (2) acres of Flame seedless, shredded and incorporated four (4) acres to ready for replants.
- 2. Added organic material back to the fallow fields.
- 3. Two (2) students worked in the vineyard enterprise, working part-time during the semester. These students were able to gain excellent experience with production viticulture and a lot of hands-on experience.

- 1. Seek out funding and replacements for at least four (4) acres of table grapes. Plant two (2) to four (4) acres of mid-season red table grapes to replace the Crimson.
- 2. Update table grape irrigation system.
- 3. Continue to operate the vineyard as efficiently as possible and produce high-quality table grapes.
- 4. Continue to sell high-quality table grapes through the Gibson Farm Market and explore options for other off-campus outlets to sell table grapes for more direct income.

ENTERPRISE: <u>VINEYARD - WINE GRAPES</u>

PREPARED BY: Leah Groves, Vineyard Technician

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

- 1. Continued the teaching block rotation with student lead planting of Sangiovese vines (donated by Durate). This planting completed the full rotation.
- 2. Planted cover crops in selective varieties.
- 3. Hosted robotic demonstrations in the wine grapes.
- 4. In partnership with CIT, secured a variable frequency drive (VFD) for the wine grape irrigation system.
- 5. Two (2) students worked in the vineyard enterprise, working part-time during the semester. These students were able to gain excellent experience with production viticulture and a lot of hands-on experience.

- 1. Seek out funding for 12 acres of wine grapes, which would replace the 7-acre Thompson and 5-acre Crimson grapes.
- 2. Plant one (1) acre of a Cabernet France in the teaching block to be used commercially, in classes, or at the winery.
- 3. Update wine grape irrigation system.
- 4. Continue process to certify wine grapes as sustainable. This will potentially allow for a higher a higher sales price because of the demand of wineries seeking out sustainable sourced grapes.

ENTERPRISE: <u>WINERY</u>

PREPARED BY: Tom Montgomery, Winemaker

REVIEWED BY: Mark Salwasser, Farm Manager

2022-23 ACCOMPLISHMENTS:

- 1. Production was capped at approximately 3,000 cases for the year, with depletion consistent across all SKUs. Additional cost savings were achieved in grapes, however; supplies and shipping continue to rise in price.
- 2. Wine quality continues to be an integral part of brand recognition, positive feedback in the marketplace, and student involvement and motivation.
- 3. Marketing and sales continued to have challenges with general market off-premise sales while growth continued with DTC, Wine Club, and wholesale. The beginning of the fiscal year saw a drastic decrease in wholesale sales. A concerted campaign involving students and staff in the general market had positive results during the second half.
- 4. Customer reception to wine quality and events were overwhelmingly positive. Outreach, events, and tours continued to support positive and growing relations with the public, alumni, and the campus community. We began charging for tastings, events, and facilities during 2023.

- 1. Continue production proportional to sales tracking, maintain a portfolio of high-quality SKUs to help the sales effort.
- 2. Production will focus on delivering a portfolio of quality wines that provide customer satisfaction across wine types and price tiers while ensuring an enhanced and diversified learning application for students.
- 3. Continued emphasis on DTC sales is critical to profitability for the Winery. A strong Wine Club, events, and on-line sales will help maximize revenue in the absence of a DTC retail venue.
- 4. Make servicing accounts and delivery a priority. Identify ways to strategically utilize students in the marketing and promotion of products.

WINERY BUDGET 2023-24
